[T. D. 5203]

PART 323—SPECIAL TAXES WITH RESPECT TO COIN-OPERATED AMUSEMENT AND GAMBLING DEVICES, BOWLING ALLEYS, BILLIARD TABLES AND POOL TABLES¹

REGULATIONS 59 (1941 EDITION) AMENDED

In order to conform Regulations 59 (1941 edition) [Part 323, Title 26, Code of Federal Regulations, 1941 Sup.] to section 617 of the Revenue Act of 1942 (Public Law 753, Seventy-seventh Congress, second session), such regulations are amended as follows:

PARAGRAPH 1. Subpart C relating to coin-operated amusement and gaming devices is amended by inserting immediately after the quotation of section 3267 the following:

SEC. 617. COIN-OPERATED AMUSEMENT AND GAMING DEVICES. (Revenue Act of 1942, Title VI.)

(a) Increase in rate on gambling devices. Section 3267 (a) (2) and (3) (relating to rate of tax on gambling devices) is amended by striking out "\$50" and inserting in lieu thereof "\$100".

(b) Definition. Section 3267 (b) is amended to read as follows:

(b) Definition. As used in this Part, the term "coin-operated amusement and gaming devices" means (1) any amusement or music machine operated by means of the insertion of a coin, token, or similar object, and (2) so-called "slot" machines which operate by means of insertion of a coin, token, or similar object and which, by application of the element of chance, may deliver, or entitle the person playing or operating the machine to receive, cash, premium, merchandise, or tokens. (c) Effective date of amendments. The amendments made by this section shall be first applicable as follows:

(1) In the case of machines the rate of tax on which is increased, to the year beginning July 1, 1943.

(2) In the case of machines not subject to tax prior to such amendments, no tax shall be payable with respect to any period before the effective date of this title.

(3) In the case of machines if the limitation on the amount of the prize dispensed is 5 cents, to the year beginning July 1, 1942.

The special taxes with respect to coin-operated amusement and gaming devices imposed by section 3267, added to the Internal Revenue Code by section 555 of the Revenue Act of 1941, became effective October 1, 1941. The effective dates of changes made in such section 3267 by the Revenue Act of 1942 are as follows:

(a) Effective July 1, 1943, except as indicated by (c) below, the rate of tax applicable with respect to gaming devices operated by means of the insertion of a coin, token, or similar object is increased from \$50 to \$100 per annum.

(b) Effective November 1, 1942, any amusement or music machine operated by means of the insertion of a coin, token, or similar object, not within the scope of section 3267 as originally enacted, is subject to tax.

(c) Effective July 1, 1942, the tax on a vending machine, operated by means of the insertion of a 1 cent coin, which dispenses, or entitles a person to receive,

a prize of a value of not more than 5 cents consisting of merchandise only, and never of cash or tokens, is reduced from \$50 to \$10.

PAR. 3. The first paragraph of § 323.22, which includes both paragraphs (a) and (b), is amended to read as follows:

§ 323.22 Rates and computation of tax. Special taxes are imposed as follows:

(a) Effective October 1, 1941, and continuing through October 31, 1942, \$10 per year in the case of each so-called "pin-ball" or other similar amusement machine operated by means of the insertion of a coin, token, or other similar object.

(b) Effective November 1, 1942, \$10 per year in the case of any amusement or music machine operated by means of the insertion of a coin, token, or similar object, including machines within the scope of paragraph (a), except that where, prior to November 1, 1942, tax for any period has been paid with respect to a machine within the scope of such paragraph (a), no further tax with respect to such machine for the same period will be due.

(c) Effective July 1, 1942, \$10 per year in the case of each vending machine operated by means of the insertion of a 1 cent coin, which dispenses a prize of a retail value of, or entitles a person to receive a prize of a retail value of, not more than 5 cents, consisting of merchandise only and never of cash or tokens.

(d) Effective October 1, 1941, and continuing through June 30, 1943, \$50, and effective July 1, 1943, \$100, per year in the case of each so-called "slot" machine which operates by means of the insertion of a coin, token, or similar object and which, by application of the element of chance, may deliver, or entitle the person playing or operating the machine to receive, cash, premiums, merchandise, or tokens; except that this subparagraph shall not be applicable for any period after June 30, 1942, with respect to any machine covered by paragraph (c) above.

PAR. 4. Section 323.22 is amended by adding after the last paragraph thereof the following:

Examples of machines which, when operated by means of the insertion of a coin, token, or similar object, are regarded as gaming devices for purposes of these regulations are:

(a) A "pin-ball" machine with respect to which unused "free plays" are redeemed in cash, tokens, or merchandise, or with respect to which prizes are offered to any person for the attainment of designated scores.

(b) A machine which, even though it does not dispense cash or tokens, has incorporated gaming features in the form of combinations of insignia on reels or drums.

PART 328—MINIMUM PRICE SCHEDULE,
DISTRICT No. 2

ORDER GRANTING RELIEF, ETC.

Order amending order granting temporary relief and conditionally providing for final relief in the matter of the petition of District Board No. 8 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 8 and for a change in shipping point for Mine Index No. 389.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 8 and for a change in shipping point for Mine Index No. 389; and

An order granting temporary and conditionally final relief as prayed for having been issued herein on October 22, 1942, 7 F.R. 8987; and

A motion having been filed herein by the above-named party requesting that the relief heretofore granted be continued to March 22, 1943, and to become final at that time unless otherwise ordered during the intervening period; and

It appearing from said motion and the original petition herein that the temporary and conditionally final relief heretofore granted concerns the establishment of price classifications and minimum prices for Size Groups 24 to 27, inclusive, special purpose coal, produced by two mines from the Douglas Seam in the Williamson subdistrict of District No. 8; that the actual performance of such special purpose coals is a relatively more important criterion than in the case of other coals in determining the relative market value of such coals, for the reason that the factors which are indicative of relative market value are relatively less strong in the case of special purpose coals; and that the petitioner herein has been unable to secure any data as to the actual performance of the said Douglas Seam coals for special purpose use and probably will be unable to secure and consider such data for minimum price purposes substantially prior to March 22, 1943; and

It appearing that a reasonable showing of necessity has been made for the granting of said motion; and

No petitions of intervention or motions in opposition having been filed with the Division in the above-entitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

Now, therefore, it is ordered, That the motion be and the same hereby is granted and the temporary and conditionally final relief heretofore granted by the order issued herein on October 22, 1942, 7 F.R. 8987, be, and the same hereby is, continued to March 22, 1943, at which time such relief shall become final, unless otherwise ordered during the intervening period.

It is further ordered, That pleadings in opposition to the original petition in the

above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the Rules and Regulations Governing Practice and Procedure before the Bituminous Coal Division in Proceedings Instituted Pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

TITLE 31—MONEY AND FINANCE:
TREASURY.

Chapter I—Monetary Offices

PART 101—PHYSICAL PROPERTIES OF COINS

ONE-CENT PIECE

Whereas the Act of December 18, 1942 (Public Law No. 815, 77th Congress) provides in part as follows:

SEC. 1. (a) There shall be included among the coins of the United States one or more special series of coins: *Provided*, That the coinage, issuance, and circulation of the coins provided for by this section shall be subject in all respects to the conditions, terms, provisions, limitations, and exceptions specified in subsections (b) to (j) hereof.

(b) No denomination or series of coins provided for by this section shall be coined unless and until the Secretary of the Treasury shall have issued an order that shall (1) prescribe the particular denomination or series, stating the pertinent physical properties, including content, weight, dimensions, shape, and design: *Provided*, That in determining such physical properties the Secretary shall take into consideration the use of such coins in coin-operated devices; and (2) state that he has determined, after consultation with the appropriate officials charged with the production of war material, that the coinage and circulation of the particular series will operate to conserve strategic metals in furtherance of the war effort.

(c) There shall be no coinage pursuant to the provisions of this section after December 31, 1946.

(d) The coinage provided for by this section shall not be of other denominations than 1-cent piece and 3-cent piece and the amount of coinage of each such denomination shall be prescribed by the Secretary of the Treasury.

(e) Each denomination of coins provided for by this section shall constitute a series: *Provided*, That if one denomination is coined in more than one physical form or composition, the pieces of each different physical form or composition shall constitute a separate series.

(f) The coinage provided for by this section shall be in pieces of such metallic, or other or different content, weight, dimensions, shape, limits of tolerance, and design (including devices and legends), as the Secretary of the Treasury may by regulation prescribe for the particular denomination or series: *Provided*, That no silver shall be used for the coinage provided for by this section except as specified in subsection (g) hereof.

(g) For the coinage of any series, the Secretary of the Treasury is hereby authorized to allocate to the Director of the Mint, at such times and in such amounts as the Secretary of the Treasury deems necessary, any silver bullion in the monetary stocks of

the United States not then held for redemption of any outstanding silver certificates. Silver contained in any pieces coined under section 1 of this Act shall be accounted for by entries in the fund established for the purchase of metal for minor coinage: *Provided*, That the value of any silver bullion accounted for in said fund shall not be considered for the purpose of determining the statutory limit of said fund: *Provided further*, That the gain from the coinage of silver hereunder shall be accounted for by entries in the minor coinage profit fund. If any series is coined of silver or in part of silver, the pieces of said series shall nevertheless be deemed to be other than silver coins, subsidiary silver coins, silver coinage, or subsidiary silver coinage within the meaning of the monetary laws of the United States.

(h) The coinage provided for by this section shall be minor coinage, and the provisions of amended section 3523 of the Revised Statutes (U.S.C., title 31, sec. 340) shall apply with respect to any necessary purchases of metal or other material for the coinage provided for by this section: *Provided, however*, That contracts for said purchases may be entered into in accordance with the provisions of title II of the First War Powers Act, 1941 (55 Stat. 839; U.S.C., Supp. 1, title 50, app. sec. 611).

(i) For the purpose of amended section 3523 of the Revised Statutes (U.S.C., title 31, sec. 341), the coinage provided for in this section shall be in the same category as the minor coins referred to in said section 3523.

(j) Except as provided in this Act, the coinage provided for by this section shall be subject in all respects to the monetary laws of the United States, including, but not by way of limitation, the laws pertaining to counterfeiting, to legal tender, and to the distribution, exchange, and redemption of coins and currency.

SEC. 2. During the period when the coinage provided for by section 1 of this Act may be coined, the Secretary of the Treasury is hereby authorized in his discretion to cause the coinage of any or all of the other minor coins to be suspended for the whole of said period or for any part or parts thereof.

and

Whereas I have determined, after consultation with the Chairman of the War Production Board, that the coinage and circulation of the 1-cent piece herein-after described, will operate to conserve strategic metals in furtherance of the war effort, and

Whereas in determining the physical properties of the 1-cent piece hereinafter described, I have taken into consideration its use in coin-operated devices;

Now therefore, I, Henry Morgenthau, Jr., Secretary of the Treasury, do hereby order that:

§ 101.1 *One-cent piece.* (a) Until further notice, or until December 31, 1946, whichever shall first occur, the 1-cent piece coined by the United States mints, shall have the following physical properties:

(1) It shall be composed of steel with the obverse and reverse sides covered with a coating of .00025 inches of zinc.

(2) It shall weigh 41.5 grains.

(3) It shall have a diameter of .750 inches.

(4) It shall be in the shape of a disc.

(5) It shall not vary in weight by more than 3 grains; it shall not vary in diameter by more than .002 inches; and the zinc coating shall not exceed .001 inches.

(6) It shall contain the same design, devices and legends as those used since 1909, for the 1-cent piece coined pursuant to amended section 3515 of the Revised Statutes (U.S.C. title 31, sec. 317).

(b) After January 1, 1943 and during the period in which the above described 1-cent piece is coined, the coinage of 1-cent pieces pursuant to the provisions of amended section 3515 of the Revised Statutes (U.S.C. title 31, sec. 317) shall be suspended.

This order may be modified or revoked at any time.

[SEAL] HENRY MORGENTHAU, Jr.,
Secretary of the Treasury.

[Preference Rating Order P-138]

For the purpose of facilitating the acquisition of material for operating supplies and for maintenance and repair of property and equipment used in the production of logs and lumber in the public interest and to promote the national defense, preference ratings are hereby assigned to deliveries of such material on the terms hereinafter set forth:

§ 3153.1 *Preference Rating Order P-138—(a) Definitions.* For the purpose of this order:

(2) "Producer" means any plant within the limits of the United States, its territories or possessions, or the Dominion of Canada which processes, by sawing, edging, planing, cutting, slicing, peeling, laminating or other comparable method, 25% or more of the total volume of logs, cants, flitches, veneers, and lumber purchased or received by it, and which sells as lumber, plywood or veneer the product of such processing. "Volume" means board foot volume, or in the case of plywood or veneer, surface measure, processed or sold within the last six calendar months immediately prior to the transaction affected by this order.

(3) "Maintenance" means minimum upkeep necessary to continue the work-

ing condition of equipment used in connection with log, lumber, plywood or veneer production by a logger or producer at its maximum rate of actual production.

(4) "Repair" means the restoration of property or equipment used in connection with log, lumber, plywood or veneer production by a logger or producer in a sound working condition after wear and tear, damage, destruction or failure of parts or the like have made the property or equipment unfit or unsafe for service.

(5) "Operating supplies" means material which is essential to the operation of property and equipment used in connection with log, lumber, plywood or veneer production, or essential to the production or disposition of logs, lumber, plywood or veneer by a logger or producer and which is generally carried as stores and charged to operating expense account, but not including office supplies.

(6) "Material" means any commodity, equipment, accessory, part, assembly or product of any kind.

(7) Material for maintenance, repair and operating supplies includes only material which is essential to minimum service standards, and does not include

(i) Material for the improvement of a logger's or producer's property or equipment through the replacement of material which is still usable with material of a better kind, quality or design.

(ii) Material controlled by Limitation Order L-158 or Limitation Order L-53-b.

(iii) Material for additions to, or expansions of, any logger's or producer's plant, or for new construction.

(b) *Assignment of preference ratings.* Subject to the restrictions of paragraph (d) hereof, a preference rating of AA-2X is hereby assigned to deliveries of material for maintenance, repair and operating supplies to a logger or producer.

(c) *Application and extension of preference ratings.* Preference ratings assigned by or pursuant to this order shall be applied in accordance with the terms of paragraph (d) (1) of Priorities Regulation No. 3, as amended from time to time.

(d) *Restrictions on application of ratings.* (1) A logger or producer shall not apply the rating assigned by paragraph (b) above to deliveries, nor shall he accept deliveries (whether or not rated pursuant to this order), of material to replace other material withdrawn from his inventory of maintenance, repair and operating supplies where receipt of such deliveries will increase such inventory to an amount greater than the minimum necessary for maintenance, repair and to sustain the maximum rate of production of the logger or producer.

(2) The cost of material for maintenance, repair and operating supplies to which the rating assigned by paragraph (b) above may be applied by a logger or producer in any calendar year shall not exceed 110% of the cost of such material

actually used by the logger or producer applying the rating in the most recent preceding calendar year in which such logger or producer was logging, or producing lumber, plywood or veneer, and in any calendar quarter shall not exceed 40% of the cost of the material to which a rating may be applied in the same calendar year.

(3) A logger or producer shall not apply the ratings assigned by paragraph (b) to obtain deliveries of scarce material, the use of which could be eliminated without serious loss of efficiency by substitution of a less scarce material.

(4) The assignment of a preference rating by paragraph (b) above shall not constitute authorization to begin construction under Conservation Order No. L-41, and shall not authorize the use or delivery of any material, or the application or extension of any preference rating in violation of the provisions of any conservation, limitation or other order or regulation heretofore or hereafter issued by the Director of Priorities, the Office of Production Management, or by the Director of Industry Operations or the Director General for Operations of the War Production Board.

(e) *Applicability of priorities regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the priorities regulations of the War Production Board as amended from time to time; except that after the effective date of this order no logger or producer shall be entitled to extend preference ratings for repair, maintenance and operating supplies pursuant to paragraph (c) (3) of Priorities Regulation No. 3.

In addition any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

PART 1381—SOFTWOOD LUMBER

[MPR 94]

WESTERN PINE AND ASSOCIATED SPECIES OF LUMBER

The title, the preamble and §§ 1312.251 to 1312.262, inclusive, are renumbered, redesignated and amended to read as set forth herein:

In the judgment of the Price Administrator, it is necessary and proper to establish specific maximum prices for the sale of Western pine and certain associated secondary species of lumber. In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250. A statement of the considerations involved in the issuance of this regulation is issued simultaneously herewith and has been filed with the Division of the Federal Register.*

The Price Administrator has given due consideration to prices prevailing between October 1 and October 15, 1941, and to relevant factors of general applicability. So far as practicable the Price Administrator has consulted with representatives of trade and industry.

Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, and in accordance with Revised Procedural Regulation No. 1¹ issued by the Office of Price Administration, Maximum Price Regulation No. 94, Western Pine and Associated Species of Lumber, is hereby issued.

AUTHORITY: §§ 1381.501 to 1381.521, inclusive, issued under Pub. Laws 421 and 729, 77th Cong., E.O. 9250, 7 F.R. 7871.

*Copies may be obtained from the Office of Price Administration.
17 F.R. 8961.

§ 1381.501 *Sales of Western pine and associated species of lumber at higher than maximum prices prohibited.* (a) On and after December 29, 1942, regardless of any contract or other obligation, no person shall sell or deliver, and no person shall buy or receive in the course of trade or business, any Western pine and associated species of lumber for direct-mill shipment at prices higher than the maximum prices fixed by this regulation, and no person shall agree, offer or attempt to do any of these things. Maximum f. o. b. mill prices are set forth in Appendices A to H.

(b) Prices lower than the maximum prices may, of course, be charged and paid.

§ 1381.502 *What products, persons and transactions are covered.*—(a) *What transactions are covered.*—(1) *Direct-mill shipments.* This ceiling applies to all shipments originating at a mill, no matter who the seller is, and no matter whether he usually is known as a mill, wholesaler, retailer or anything else. It does not apply to sales out of distribution yard stock. (The prices for yard sales may be found either in Maximum Price Regulation No. 215 or in the General Maximum Price Regulation, depending on the nature of the sale and the purchaser.) A shipment is regarded as originating at a mill if the lumber reaches the purchaser without ever becoming an integral part of the stock of a distribution yard. A sale is considered a sale out of distribution yard stock only if the lumber was a part of regular yard stock at the time the sale was made. For example, if a retail yard takes an order for a defense housing project, and then brings the lumber from a mill, puts it in his yard, and delivers it as needed, the sale is subject to this regulation.

(2) *How to tell a mill from a distribution yard.*—(i) *General tests.* The term "mill", as used here, covers what are known in the trade as sawmills, planing mills and concentration yards. Three types of establishment are described below: the first, (a), a typical sawmill or planing mill; the second, (b), a typical concentration yard; and the third, (c), a typical distribution yard. An establishment which resembles (a) or (b) more than it does (c) is considered a mill; and one which resembles (c) more than it does (a) or (b) is considered a distribution yard:

(a) An establishment which is chiefly engaged in manufacturing lumber from logs or rough lumber by sawing or planing; which is located in or near a lumber producing area; which makes and sells chiefly Western pine and associated species of lumber;

(b) An establishment which concentrates and prepares lumber for commercial shipment, which keeps in stock mostly Western pine and associated species of lumber, which has its lumber brought in chiefly in rough green form by truck from small local sawmills and sells chiefly for rail shipment, and which has been located at its particular site to be near the lumber producing area;

(c) A wholesale or retail lumber yard which gets lumber from mills or other yards; unloads, sorts, stores, and resells or redistributes it; which regularly main-

tains a varied stock of lumber from different regions; which gets its lumber mostly by rail and sells mostly for truck shipment; which is equipped to make quick deliveries of many different items of lumber; and which has been located at its particular site in order to be near a lumber consuming area.

(3) *No quantity limits.* There are no quantity limits on the transactions covered by this regulation. All direct-mill sales, large or small, are covered.

(b) *What products are covered.*—(1) *General.* This regulation covers all Western pine and associated species of lumber, whether the grades, sizes, and specifications are specifically named in the price tables or not. All grade terms have the meaning given in the "Standard Grading Rules" published by the Western Pine Association, and effective July 1, 1942; but any item not graded in accordance with these rules is nevertheless subject to this regulation.

(2) *Species and areas.* The following species from the following areas are covered by this regulation:

(i) Ponderosa pine (*pinus ponderosa*), Idaho white pine (*pinus monticola*), and sugar pine (*pinus lambertiana*) produced in Oregon, Washington, Idaho, California, Montana, Canada, and Mexico;

(ii) Douglas fir (*pseudotsuga taxifolia*), West Coast hemlock (*tsuga heterophylla*, *tsuga mertensiana*), and true fir (*abies*), produced in Idaho and Montana, in those portions of Washington and Oregon east of the crest of the Cascade Mountains, and in California, except the counties of Del Norte, Humboldt, Mendocino, and Sonoma. A mill which because of its location near the crest of the Cascade Mountains produces "coast type" Douglas fir, hemlock, or true fir, and which has customarily graded these species under the West Coast Lumbermen's Association Standard Grading and Dressing Rules, and sold them in competition with producers located in the area covered by Maximum Price Regulation No. 26 may apply to the Portland, Oregon, office of the Office of Price Administration for special permission to use the maximum prices in Maximum Price Regulation No. 26 instead of the prices in Maximum Price Regulation No. 94. A mill which applies for this special permission must make a sworn statement that the conditions set out in this paragraph exist in its operations. The Portland, Oregon office may act upon the application by letter or telegram;

(iii) Inland larch (*larix occidentalis*), Engelmann spruce (*picea*), red cedar (*tsuga plicata*), and incense cedar (*libocedrus decurrens*) produced in Idaho and Montana, in those portions of Washington and Oregon east of the crest of the Cascade Mountains, in California except the counties of Del Norte, Humboldt, Mendocino, and Sonoma, and in Canada and Mexico.

(c) *What persons are covered.* Any person who makes the kind of sale or purchase, or who acts as broker in a sale covered by this regulation, is subject to it. The term "person" includes: an individual, corporation, partnership, association, or any other organized groups; their legal successors or representatives; the United States, or any government, or any of its political sub-

divisions; or any agency of any of the foregoing.

§ 1381.503 *Direct-mill retail sales.* In the case of "direct-mill retail sales," a mark-up of not more than \$3.50 per 1,000 feet board measure may be added to the maximum prices set forth herein.

(a) A "direct-mill retail sale" means a sale of lumber direct from the mill to a consumer or contractor for use in building, construction, remodeling, repair, maintenance or fabrication. It does not mean a sale to a wholesaler or other person for resale in substantially the same form.

(b) It includes only sales of less than 20,000 feet board measure. The size of the sale is determined by the size of the entire order.

(c) The sale must be accompanied by the following services: delivery to the job site or other place specified by the purchaser and at such time and in such quantity as the purchaser specifies; the privilege of exchanging the goods and returning unused materials and the right to have the seller replace deficiencies and adjust complaints from stock kept on hand for such purposes.

§ 1381.504 *How to figure delivery prices, including imports.*—(a) *Transportation addition.* The transportation charges set forth below may be added to the maximum f. o. b. mill prices.

(1) *Common or contract carrier.* (i) When the estimated dry weights in Appendix I are used, the rate times the estimated weight is the proper transportation charge even if the estimated dry weights are higher than actual weights. Estimated green weights may be used in calculating transportation charges only if the moisture content is greater than 19%. Higher estimated weights than those in Appendix I may not be used. The estimated weight must be the weight for the exact kind of lumber actually shipped. For example, green weights cannot be used if dry lumber is shipped. The transportation charge may be evened out to the nearest quarter dollar per M.

(ii) When estimated weights are not used, the amount added for transportation must not be more than the amount actually paid to the common or contract carrier, evened out to the nearest quarter-dollar per M.

(2) *Private truck.* When shipment is by truck owned or controlled by the seller, the amount added for transportation may not be more than the actual cost to the seller of delivery by truck; and, no matter what the actual cost is, the amount added may not be more than the railroad charge at the carload rate for the most similar haul. However, if this railroad charge is less than \$1.50, and if the actual cost of delivery is more than \$1.50, a transportation charge of \$1.50 may be made. But in any event, if the actual cost is less than the railroad carload charge, or less than \$1.50, only the actual cost may be added.

(3) *Trucking to railroad.* When a truck haul precedes rail shipment, as when a mill located away from a railroad hauls lumber by truck to the railroad, no addition may be made for the truck haul. However, in the following three cases a mill may apply for special permission to make an addition:

(i) Where the mill was located away from rail connections because it specialized in water-borne lumber, and where shortage of shipping has forced it to operate by rail;

(ii) Where the mill prior to the shortage of tires and gasoline, shipped lumber to the particular final destination, principally by all-truck haul, and now wishes to convert to truck-and-rail haul to save tires and gasoline;

(iii) Where a mill's rail connection has been abandoned since September 5, 1941.

The application should be made by letter to the Lumber Branch of the Office of Price Administration, Washington, D. C., and may be acted upon by letter. The addition may not be made on quotations or sales until permission has been received.

(4) *Truck delivery after rail haul.* When truck delivery follows a rail haul, the actual cost of truck delivery may be added.

(5) *All-truck haul.* When an all-truck haul ends in delivery to the job site, no special addition may be made above the charges provided in subparagraphs (1) and (2) of this paragraph, since in this case, delivery to the job site involves no extra expense.

(6) *"Averaging-out."* (i) When a single order for which a single flat delivered price was quoted and accepted, is shipped from two or more mills to a single destination on varying freight rates, the seller may average-out the transportation charges. For example, if a wholesaler bids \$33.00 on a single order of a hundred thousand feet of lumber, the ceiling price being \$30.00 and the estimated freight \$3.00, he can ship half of it on a rate resulting in a \$1.00 freight charge and half on a rate resulting in a \$5.00 freight charge.

(ii) In order that no single invoice shall appear to be false or over the ceiling, the seller must write on each invoice that the particular shipment is part of a larger order. Then, when shipment has been completed, he must render a final invoice which shows the individual f. o. b. mill prices separately, the amount shipped from each mill, the freight charge for each shipment, and a reconciliation of the total amount so computed with the agreed delivered sale price and also with the maximum price permitted by this regulation.

(iii) In order that it may be determined within a reasonable length of time whether or not a seller has complied with the Regulation, this privilege of "averaging-out" shall extend only to shipments delivered to a common carrier within three months of the date of the contract.

(b) *Imports.* The transportation addition on shipments originating in Canada and Mexico is subject to the rules in this section, but with the following additional limitations:

(1) In the case of Canada, the addition may not be greater than if the shipment had originated at Spokane, Washington;

(2) In the case of Mexico, the addition may not be greater than if the shipment had originated at Susanville, California.

§ 1381.505 *What the invoice must contain.*—(a) *General.* Because of the large

number of possible additions to the basic f. o. b. mill prices, it is necessary that some of them be separately shown on the invoice. Otherwise the purchaser and the Office of Price Administration could not tell in many cases whether a price which appeared to be above the ceiling was legal or not.

Failure to invoice properly is just as much a violation of this Regulation as charging an excessive price.

(b) *Basic price.* All invoices must contain a sufficiently complete description of the lumber to show whether the price is proper or not. Any working, specification, or extra which affects the maximum price must be mentioned in the description. The amount added for these does not have to be separately shown, except in a few special cases which are specifically mentioned later.

(c) *Transportation charges.* In delivered sales, the invoice must contain:

- (1) Point of origin of shipment,
- (2) Destination,
- (3) Rail or truck rate (or, if private truck, amount added for transportation),
- (4) The words "direct-mill shipment."
- (d) *Delivery and related charges.* Any separate charge which the seller is permitted to make for the following must be separately shown on the invoice:

- (1) Trucking from mill to railroad,
- (2) Truck delivery after rail haul.
- (e) *Mark-ups.* If the price exceeds the basic mill price because of the direct-mill retail sale mark-up authorized by § 1381.503, the invoice should show the amount of the mark-up separately, labeled "direct-mill retail sale."

(f) *Average price on different items.* When specified amounts or percentages of different grades, classes, or sizes of lumber are sold at an average price, it is permissible to invoice at an average price, but only if all of the following conditions are observed:

(1) The footage of each item must be shown separately. For example, if an order of 20% No. 1, 60% No. 2, and 20% No. 3 has been sold at an average price, the exact footage tally of each grade must appear on the invoice.

(2) In addition, if the order is shipped in more than one carload or truck load, the invoice for each carload or truck load must show that it is part of a larger order, and identify the order. For example, the invoice might state: "Shipment No. 3 of our order No. 4444 for 3,000,000 ft."

(3) The average price for the lumber actually shipped must not be higher than the average, weighted by quantity, of the individual maximum prices of the items shipped. In other words, the final price must not be higher than it would have been if all the individual grades, classes, and sizes shipped had been sold separately at the individual ceiling prices.

(4) In order that it may be determined within a reasonable length of time whether a seller has complied with the regulation, this privilege of selling at an average price extends only to shipments delivered to a common carrier within three months of the date of the contract.

§ 1381.506 *Prohibited practices*—(a) *General.* Any practice which is a device to get the effect of a higher-than-ceiling price without actually raising the dollars and cents price is as much a violation

of this regulation as an outright over-ceiling price. This applies to devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying-agreements, trade understandings and the like.

(b) *Specific practices.* The following are among the specific practices prohibited:

(1) Getting the effect of a higher price by changing credit practices from what they were in October 1941. This includes decreasing credit periods, or making greater charges for extension of credit. In any case, on sales made through the Office of the Chief of Engineers, War Department, terms of 30 days net may be used. In all cases, if the sale is on cash terms, the maximum price must be reduced by the same amount as the sale price would have been reduced for similar cash terms on October 1, 1941. For example, if the maximum price without cash discount is \$10.00, and if in sales of this item on October 1, 1941 to purchasers of a certain class, the seller reduced sales prices 2 percent for cash within 10 days, the ceiling cash price in sales to purchasers of this class is \$9.90.

(2) Refusing, without good reason, to ship except in specified or restricted random lengths or widths, or under other circumstances which bring the seller an extra return.

(3) Selling as specified lengths or widths a shipment of lumber which is substantially equivalent to random lengths or widths; or reselling as specified lengths or widths a shipment bought by the seller as random lengths or widths.

(4) Grading as a special grade lumber which can be graded as a standard grade; or wrongly grading or invoicing lumber in any other way.

(5) Refusing to sell on an f. o. b. mill basis, and insisting on selling on a delivered basis.

(6) Unnecessarily routing lumber through a distribution yard.

(7) Quoting a gross price above the maximum price, even if accompanied by a discount the effect of which is to bring the net price below the maximum.

(8) Making the buyer take something he does not want in order to get what he does want; for example, making a buyer who orders No. 2 common take all the upper grades that develop.

(c) *Purchasing commissions.* A purchasing commission based on the quantity or value of lumber purchased may not be charged or paid, if the commission plus the purchase price is higher than the maximum price permitted by this regulation.

(d) *Combination grades.* Lumber sold on combination grades may not be sold at above the maximum price for the lowest grade actually named in the combination. For example, the maximum price for No. 2 common and better is that set for No. 2 common. Of course, the amount of the different grades included can be quoted and shown separately on the invoice at the individual prices for those grades. Also, it is permissible to sell on the basis of a stated percentage of better grades, such as No. 2 with 15% No. 1. In this case the price of 15% of the footage may be the No. 1

price, if the invoice shows that the footage tally of the lumber actually shipped runs at least 15% No. 1. It is also permissible to quote a grade at that grade's price, with higher grades developing to be included at the grade differential. For example, when a seller quotes No. 2 at the No. 2 price, with No. 1 developing to be included at the No. 1 price, this is proper, since no actual dollars-and-cents quotation above the No. 2 price is made. Again, the final price must be based on actual tally. Note, however, that it is a violation to insist on the buyer's taking grades he does not want in order to get the grade he does want.

(e) *Adjustable pricing.* A price may not be made adjustable to a maximum price which will be in effect at some time after delivery of the lumber has been completed. But the price may be adjustable to the maximum price in effect at the time of delivery.

§ 1381.507 *Grades, specifications, and extras not specifically priced*—(a) *General.* Grades and classes of Western pine and associated species of lumber not specifically priced in Appendices A to H, including export grades, are nevertheless subject to this regulation.

(b) *Grades in 8000 E list.* The maximum price for any item which is subject to this regulation but which is graded under rules other than those of the Western Pine Association "Standard Grading Rules" is the maximum price of the grade in this regulation to which it is equivalent under the United States Government Specifications 8000 E, "Lumber Specifications for Temporary Housing", as revised. For example, if No. 1 Douglas fir dimension subject to this regulation is sold at an Army Engineers' bid-letting on West Coast Lumbermen's Association grading rules, the maximum price is that set for No. 1 Douglas fir dimension in this regulation. The reason is that "Coast" Douglas fir and inland Douglas fir are listed as equivalent in the 8000 E list.

(c) *All other cases.* (1) In all other cases, the maximum price of a grade or class of lumber is a price which bears the October 1941 relation to the price of the appropriate "yardstick" grade. The "yardstick" for select and shop grades is 1 x 8 random length, C Select, S4S, dry; and for common and dimension grades is 1 x 8, random length, No. 3 Common, S4S, dry. The species for the yardstick should be either ponderosa pine or Idaho white pine, whichever represents the larger part of the seller's production. The seller should find the difference between the price received for the grade being priced and the yardstick grade in October 1941, or the first month before that in which he had sales of both grades. This difference is then added to or subtracted from the maximum price for the yardstick grade. The result is the seller's maximum price. This price, with a complete description of the grade and the way the price was computed, must be reported to the Office of Price Administration, Washington, D. C., and may be ordered reduced, if it is found excessive. But if the price is not disapproved within 30 days of the receipt of the report, it is approved.

(2) If the seller cannot figure a maximum price under this paragraph, or if

he wants to make an addition for a working, specification, service, or other extra which is not specifically provided for, he should write to the Lumber Branch of the Office of Price Administration, Washington, D. C., giving a complete description of the thing to be priced, and his requested price, and any facts supporting the request. The Office of Price Administration will then by letter give him either a specific maximum price or instructions on how to compute it. If the Office of Price Administration has not acted upon the request within 30 days, the requested price is approved.

(3) A seller using this special pricing paragraph (c) can go ahead with delivery of the lumber and collection of the price he has computed or requested. But he must tell the buyer that the price is subject to revision within the thirty-day period, and, if the price is ordered reduced, must refund any excess over the final approved price.

§ 1381.508 *Applications for adjustment and petitions for amendment*—(a) *Government contracts*. (1) The term "government contracts" is here used to include any contract with the United States or any of its agencies, or with the Government or any governmental agency of any country whose defense the President deems vital to the defense of the United States under the terms of the Act of March 11, 1941, entitled "An Act to promote the defense of the United States". It also includes any subcontract under this kind of contract.

(2) Any person who has made or intends to make a "government contract" and who thinks that a maximum price in this regulation is impeding or threatens to impede production of lumber which is essential to the war program and which is or will be the subject of the contract, may file an application for adjustment in accordance with Procedural Regulation No. 6.

(3) As soon as the application is filed, contracts, deliveries and payments may be made at the requested price, subject to refund if the requested price is disapproved or lowered. The seller must tell the buyer that the delivery is made subject to this refund.

(b) *Petitions for amendment*. Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, issued by the Office of Price Administration.

§ 1381.509 *Records and reports*—(a) *Records*. All sellers of Western pine and associated species of lumber must keep records which will show a complete description of the item of lumber sold, the name and address of the buyer, the point of origin and destination of the shipment, the date of the sale and the price. Buyers must keep similar records, including the name and address of the seller. These records must be kept for any month in which the seller or buyer sold or bought 20,000 ft. BM or more of Western pine and associated species of lumber. They must be kept for two years, for inspection by the Office of Price Administration. Any records which the Office of Price Administration later requires must also be kept.

(b) *Reports*. Any reports that the Office of Price Administration requires must be submitted.

§ 1381.510 *Enforcement and licensing*. (a) Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for revocation of licenses provided for by the Emergency Price Control Act of 1942, as amended.

(b) Persons who have evidence of any violation of this regulation or of any other regulation or order issued by the Office of Price Administration are urged to communicate with the nearest field, state, or regional office of the Office of Price Administration or its principal office in Washington, D. C.

(c) War procurement agencies and their contracting or paying finance officers are not subject to any liability civil or criminal, imposed by this regulation. "War procurement agencies" include the War Department, the Navy Department, the United States Maritime Commission and the Lend-Lease Section in the Procurement Division of the Treasury Department, or any of their agencies.

(d) All sellers of Western pine and associated species of lumber under this regulation, except mills, are licensed by Supplementary Order 18.² This order, in brief, provides that a license is necessary, except for mills, to make sales under this regulation. A license is automatically granted to all sellers making these sales. It is not necessary to apply specially for the license, but a registration may later be required. The Emergency

Price Control Act of 1942, as amended, and Supplementary Order 18, tell the circumstances under which licenses may be suspended. The license cannot be transferred.

§ 1381.511 *Relation to other regulations*—(a) *General Maximum Price Regulation*. Any sale or delivery covered by Maximum Price Regulation No. 94 is not subject to the General Maximum Price Regulation.

(b) *Maximum Export Price Regulation*.³ The maximum price for export sales of Western pine and associated species of lumber is governed by the Maximum Export Price Regulation.

§ 1381.512 *Effective date*. (a) This Regulation (§§ 1381.501 to 1381.521, inclusive) shall become effective December 29, 1942.

(b) If lumber has been received before December 29, 1942, by a carrier, other than one owned or controlled by the seller, for shipment to a buyer, that shipment is not subject to this regulation. It remains subject to the terms of any regulation, whether the General Maximum Price Regulation or an earlier version of this regulation, which covered it at the time the lumber was turned over to the carrier.

§ 1381.513 *Appendix A: Maximum prices for Ponderosa pine lumber*. For Ponderosa pine lumber, the maximum prices f. o. b. mill per one thousand feet board measure, surfaced, air dried or kiln dried (except where otherwise specified in price tables) in mixed or straight load shipments, shall be as follows:

² 7 F.R. 7240.

³ 7 F.R. 5953, 7242, 8323, 8030.

DEPARTMENT OF THE INTERIOR.

Bituminous Coal Division.

[Docket No. B-269]

MIKE MARTORANO

ORDER APPROVING PROPOSED FINDINGS OF FACT, ETC.

Order approving and adopting the proposed findings of fact, proposed conclusions of law and recommendation of the examiner, and order to cease and desist.

This proceeding was instituted by the Bituminous Coal Division, pursuant to the provisions of sections 4 II (j), 5 (b), and 6 (a) of the Bituminous Coal Act of 1937, to determine whether or not Mike Martorano, a code member operating Martorano Mine, Mine Index No. 331, located in Las Animas County, Colorado, in Subdistrict 7 of District 17, has wilfully violated the Act, the Bituminous Coal Code, the Schedule of Effective Minimum Prices for District No. 17 for All Shipments and Price Instruction 14 of the Supplement thereto, of the rules and regulations thereunder, and whether or not, in the event that code member is found to have violated the Act, the Code, or rules and regulations thereunder, an order should be entered, revoking code membership of said Martorano, or directing code member to cease and desist from violations of the Act, the Code, and rules and regulations as above set out.

Pursuant to appropriate orders and after due notice to interested persons, a hearing in this matter was held before Charles O. Fowler, a duly designated Examiner of the Division at a hearing room thereof in Trinidad, Colorado, on August 13, 1942, at which all interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard and at which an appearance was entered for the General Counsel of the Division and for code member.

The Examiner made and entered his Report, Proposed Findings of Fact, Proposed Conclusions of Law and Recommendation in this matter dated October 23, 1942. The Examiner found that code member had wilfully violated section 4 II (e) of the Act and Part II (e) of the Code during the period October 2, 1940 through October 24, 1940, by selling approximately 70 tons of coal produced at his mine at prices less than the established minimum prices; and had wilfully violated sections 4 Part II (e) and (g) of the Act and Part II (e) and (g) of the Code, during the period from November 2, 1940, through October 31, 1941, by selling approximately 690 tons of coal produced at said mine and delivering the same at prices less than the established minimum prices plus an amount at least equal, as nearly as practicable, to the

actual cost of truck transportation from the mine to the points from which all such charges were assumed and directly paid by the purchasers. The Examiner recommended that an order be entered directing code member to cease and desist from violating section 4 II (e) and (g) of the Act, the Code, the Schedule of Effective Minimum Prices for District 17 for All Shipments and Price Instruction 14 of the Supplement thereto, of the rules and regulations promulgated thereunder.

An opportunity was afforded to all parties to file exceptions to the Examiner's Report and supporting briefs and no such exceptions or supporting briefs were filed.

The undersigned has determined after a consideration of the record that the Proposed Findings of Fact Proposed Conclusions of Law, and Recommendation of the Examiner should be approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned.

Now, therefore, it is ordered, That the Proposed Findings of Fact and Proposed Conclusions of Law of the Examiner be, and the same are, hereby approved and adopted as the Findings of Fact and Conclusions of Law of the undersigned;

It is further ordered, That code member, Mike Martorano, his representatives, agents, servants, employees, and attorneys, and all persons acting or claiming to act on his behalf or interest, cease and desist from selling or offering to sell coals produced by the code member at his mine at prices less than the established minimum prices, contrary to the provisions of section 4 Part II (e) and (g) of the Act and Part II (e) and (g) of the Code, the Schedule of Effective Minimum Prices for District No. 17 for All Shipments and Price Instruction 14 of the Supplement thereto, or from otherwise violating the Act, the Code and the rules and regulations promulgated thereunder.

Notice is hereby given to code member that if he fails or refuses to comply with this Order, the Division may apply to a Circuit Court of Appeals for the enforcement thereof or otherwise proceed as authorized by the Act.

[Amended Suspension Order 142]

WALKER OIL COMPANY

ORDER RESTRICTING TRANSACTIONS

On October 20, 1942, Randall M. Walker, doing business as Walker Oil Company, Walker Chevrolet Company and Tank Car Station No. 5, Jesup, Georgia, hereinafter called respondent, filed a petition for reconsideration of Suspension Order No. 142 issued against respondent on October 16, 1942. Upon consideration of the petition for reconsideration, an order was made on October 29, 1942, staying Suspension Order No. 142 until further order of the Deputy Administrator in Charge of Rationing and ordering a further hearing to be held on the charges against respondent. Thereafter, there was duly served upon respondent a notice of rehearing upon specific charges of violations of Ration Order No. 5A, Gasoline Rationing Regulations, issued by the Office of Price Administration. Pursuant to the notice, the rehearing upon such charges was held on November 13, 1942, in Jesup, Georgia. There appeared a representative of the Office of Price Administration and respondent. The evidence pertaining to such charges was presented before an authorized presiding officer. Such evidence having been considered by the Administrator, it is hereby determined that:

(a) On July 22, 1942, respondent was both a dealer in and an intermediate distributor of gasoline having a place of business at Jesup, Georgia.

(b) Respondent has violated § 1394-1601 of the Gasoline Rationing Regulations in that on July 22 and July 24, 1942, in his registrations with Wayne County, Georgia, War Price and Rationing Board, he represented that the total inventory of gasoline that he had on hand as a dealer and intermediate distributor as of 12:01 A. M. July 22, 1942, was 2,699 gallons, whereas the total inventory of said gasoline was in fact 6,888 gallons and respondent thereby obtained inventory coupons in an amount 4,189 gallons in excess of that to which he was then entitled.

The violations of the Gasoline Rationing Regulations by respondent have interfered with the effective administration and enforcement of the Gasoline Rationing Regulations which have been prescribed in the public interest to promote the national war effort. It appears to the Administrator from the evidence before him that further violations of the Gasoline Rationing Regulations by respondent are likely unless appropriate administrative action is taken. *It is therefore ordered, That:*

(a) Within three (3) days after the effective date of this Order respondent shall surrender to the War Price and Rationing Board, Wayne County, Georgia, bulk, inventory or other gasoline Rationing Coupons for a total amount of 4189 gallons of gasoline and upon such surrender said Board shall cancel the same.

(b) During the period in which this Suspension Order shall be in effect, respondent shall not sell, transfer or deliver any gasoline to any consumer.

(c) Any terms used in this Order that are defined in the Gasoline Rationing Regulations shall have the meaning therein given them.

(d) This amended Suspension Order No. 142 shall become effective 12:01 a. m. December 28, 1942, and unless sooner terminated, shall expire 12:01 a. m. January 25, 1943.

BUD'S ATLANTIC SERVICE STATION.

ORDER RESTRICTING TRANSACTIONS

Albert P. Caron, doing business as Bud's Atlantic Service Station, 19 Columbia Street, Adams, Massachusetts, hereinafter called respondent, was duly served with a notice of charges of violations of Ration Order No. 5A, Gasoline Rationing Regulations, issued by the Office of Price Administration. Pursuant to the notice, a hearing upon the charges was held in Boston, Massachusetts, on October 30, 1942. There appeared a representative of the Office of Price Administration and respondent. The evidence pertaining to the charges was presented before an authorized presiding officer. The matter having been considered by the Administrator, it is hereby determined that:

(a) Respondent is a dealer in gasoline and operates a filling station known as Bud's Atlantic Service Station at 19 Columbia Street, Adams, Massachusetts.

(b) Respondent has violated Ration Order No. 5A, Gasoline Rationing Reg-

ulations, (§ 1394.1502), in that on numerous occasions between July 22, 1942, and September 22, 1942, respondent transferred gasoline to consumers and into the fuel tanks of motor vehicles in the amount of at least 450 gallons, without receiving in exchange therefor any gasoline ration coupons. Such transfers were not within the classes of transfers permitted by Ration Order No. 5A, Gasoline Rationing Regulations, to be made without the exchange of coupons.

(c) Respondent has violated Ration Order No. 5A, Gasoline Rationing Regulations, (§§ 1394.1502 and 1394.1503), in that on numerous occasions between July 22, 1942, and September 22, 1942, respondent as a dealer transferred gasoline to himself as a consumer and into the fuel tanks of private passenger automobiles operated by him without detaching coupons from ration books issued for such vehicles; the total amount of all of the gasoline so transferred greatly exceeded the total amount of the gasoline rations issued to respondent for his private passenger automobiles.

(d) Respondent has violated Ration Order No. 5A, Gasoline Rationing Regulations (§ 1394.1101), in that on numerous occasions between July 22, 1942, and September 22, 1942, respondent transferred service ration coupons issued to him for the operation of a taxicab to himself as a dealer for the purpose of replenishing his inventory.

Because of the great scarcity and critical importance of gasoline in Massachusetts, respondent's violations of Ration Order No. 5A, Gasoline Rationing Regulations, have resulted in the diversion of gasoline from military and essential civilian uses into non-essential uses, in a manner contrary to the public interest and detrimental to the national war effort. It appears to the Administrator that further violations by respondent are likely unless appropriate administrative action is taken: *It is therefore ordered:*

(e) During the period in which this Suspension Order No. 182 shall be in effect,

(1) Respondent shall not in any manner, directly or indirectly, sell, transfer or deliver gasoline to any person: *Provided, however,* That subject to the prior approval of and supervision by the Regional Administrator of Region I, Office of Price Administration, respondent may dispose of his stocks of gasoline on hand at the time this Order is served upon him.

(2) Respondent shall not accept any deliveries or transfers of, or in any manner directly or indirectly receive from any source any gasoline for resale.

(3) No person, firm, or corporation shall deliver, or in any manner directly or indirectly transfer any gasoline to respondent for resale.

(f) Within three days from the effective date of this Order, respondent shall surrender for cancellation to the War Price and Rationing Board with which he registered as a dealer, all of the gasoline ration coupons in his possession on the effective date of this Order except those issued to and held by him as a consumer.

(g) Any terms used in this Suspension Order No. 182 that are defined in Ration Order No. 5A, Gasoline Rationing Regu-

lations, shall have the meaning therein given them.

(h) This Suspension Order No. 182 shall become effective 12:01 A. M. December 28, 1942, and shall remain in effect until further order by the Deputy Administrator in Charge of Rationing but not later than December 31, 1944.

(Pub. Law 421, 77th Cong.; Sec. 2 (a) of Pub. Law 671, 76th Cong.; as amended by Pub. Laws 89 and 507, 77th Cong.; E.O. No. 9125 (7 F.R. 2719); W.P.B. Directive No. 1 (7 F.R. 562); Supplementary Directive No. 1H (7 F.R. 3478, 3877, 5216); Supplementary Directive No. 1Q (7 F.R. 9121))

Such transfers were not within the classes of transfers of gasoline permitted by the provisions of Ration Order No. 5A, Gasoline Rationing Regulations, to be made without the exchange of gasoline ration coupons.

Because of the great scarcity and critical importance of gasoline in Washington, D. Because of the great scarcity and critical importance of gasoline in Washington, D. C., respondent's violations of Ration Order No. 5A, Gasoline Rationing Regulations, have resulted in the diversion

of gasoline from military and essential civilian uses into non-essential uses in a manner contrary to the public interest and detrimental to the national war effort. It appears to the Administrator that further violations by respondent are likely unless appropriate administrative action is taken; *It is therefore ordered:*

(c) During the period in which this Suspension Order No. 188 shall be in effect,

UNITED RICHFIELD STATION

ORDER RESTRICTING TRANSACTIONS

Lewis Yankelevitz, doing business as United Richfield Station, Harrison and Center Streets, Cumberland, Maryland, hereinafter called respondent, was duly notified of charges of violations of Ration Order No. 5A, Gasoline Rationing Regulations, issued by the Office of Price Administration. Pursuant to the notice a hearing upon the charges was held on November 10, 1942, in Baltimore, Maryland. There appeared a representative of the Office of Price Administration and respondent. The evidence pertaining to the charges was presented before an authorized presiding officer. The matter having been duly considered by the Administrator, it is hereby determined that:

(a) Respondent has violated Ration Order No. 5A, Gasoline Rationing Regulations (§ 1394.1503), in that on various occasions between July 22 and September 12, 1942, respondent transferred gasoline to consumers and into the fuel tanks of their motor vehicles in exchange for gasoline ration coupons Class "S" from coupon books that were

not issued for and did not bear the identification of the vehicle into which the transfers were made.

(b) Respondent has violated Ration Order No. 5A, Gasoline Rationing Regulations (§ 1394.1503), in that on various occasions between July 22 and September 12, 1942, respondent transferred gasoline to consumers and into the fuel tanks of their motor vehicles and accepted in exchange for such transfers one Class A, No. 3 coupon; ten Class A, No. 4 coupons; and four Class A, No. 6 coupons.

(c) Respondent has violated Ration Order No. 5A, Gasoline Rationing Regulations (§ 1394.1601) in that on or about July 22, 1942, respondent filed with the Office of Price Administration for the gasoline filling station known as United Richfield Station at Harrison and Center Streets, Cumberland, Maryland, an application for inventory coupons on OPA Form R-545 wherein the gasoline capacity of such station was stated to be 3,100 gallons when, in fact, such storage capacity was 2,100 gallons.

Because of the great scarcity and critical importance of gasoline in Maryland, respondent's violations of Ration Order No. 5A, Gasoline Rationing Regulations, have resulted in the diversion of gasoline from military and essential civilian uses into non-essential uses, in a manner contrary to the public interest and detrimental to the national war effort. It appears to the Administrator that further violations by respondent are likely unless appropriate administrative action is taken; *It is therefore ordered:*
